## HUNTING SEASON

A few members of our club have been polishing up their beams and charging there batteries in hopes of bagging the 'BIG ONE'. There not gunning for bear, there hunting for Fox. Not the cute furry one, but the sly, cunning, and dasterly one with the hidden transmitter. Tuesday evening, October 13th, 7:00PM, on 147.555 was the setting. The sun had just set. KB9AMM, Scott Cole was the fox, and he was in hiding. The first ones to check in persuit of the fox was the N9 3 muskateers, N9QLO, N9PAY, and N9PAV in a rolling mobile with a quad beam suspended on a broom stick out the passenger window of there sedan. Next in persuit was KB9CGO, in a moter base station complete with umteen element beam mounted on the roof. Of course K9VCN and co-pilot Keith, checked in. The next check in was a little bit garbled but Bob, KA9BXG soon got his radio on the right frequency so we could understand him. Soon the dynamic duo N9LOK & N9LLA joined in the chase. I wish I could have monitored the police bands, reports were coming in from all over about lawns being torn up, stop signs run over, old ladies in wheel chairs, fleeing for there lives. At one point, N9LLA reported being chewed out by a lady for crawling in her tree looking for the supposed fox. Ron, KB9CGO lost contact with the fox for a while, we considered trying to track him down instead! KA9BXG came up with more excused for his misfortunes than Carter had pills. The end results were as follows, The Fox was in his van at the northwest corner of the old Kohl's food store, next to K-Mart east, talking on 440 MHZ to the crossband transciever witch was located about 500 feet away at the entry to the parking lot, in a rubbermaid trash can, with 105 amp hour deep cycle marine battery, 2 antennas, (1 uhf, 1vhf), protruding about 5 inches out of the top, underneath a sandwich sign of the Michalin tire man. The winner was Keith, a non ham, with no transiever, but he showed Bob K9VCN where it was so Bob is the declared winner. Winning time 1 hour. Next there was the N9 3 muskateers, N9QLO, N9PAV, & N9PAY with a time of 1:12. At 1:31 was the caddy with KA9BXG, and N9LPM & N9ONQ. (Bob seemed upset!) At 1:40 N9LOK, & N9LLA joined us and at 1:55 KB9CGO and Company pulled there motorhome into the parking lot. All Enjoyed brownies, and soda, as they plotted their strategies for the next hunt. As of this hunt, we are happy to say there have been no fatalities.
